

Small Margins, Big Results:

*Advancing Radiation with PetCure Oncology
and a practical approach to oral tumors in cats & dogs*

Join us for an evening of collaborative learning as we explore staging, treatment options, and indications for referral to radiation therapy and a logical method to aid in identifying, diagnosing, and treating growths in the mouth.

Attendance of this event qualifies for 2 CE hours for DVMs & CVTs.

OUR SPEAKERS:

Karri Meleo
DVM, DACVIM, DACVR (RO)

Dr. Karri Meleo is board certified in both medical and radiation oncology. She is a graduate of UC Davis and trained at the Animal Medical Center and Memorial Sloan-Kettering Cancer Center in New York. She has authored 15 professional publications and given dozens of invited presentations on veterinary radiation and medical oncology topics. She has been a long-term consultant for VIN. Dr. Meleo has worked for PetCure Oncology since 2019 and is the primary remote radiation oncologist for Milwaukee.

Steven Honzelka
DVM, DAVDC

Dr. Honzelka is a graduate of the University of Wisconsin School of Veterinary Medicine. He is a Wisconsin native and worked at Animal Dentistry & Oral Surgery Specialists in the Milwaukee and Oshkosh area. He became board certified in veterinary dentistry in 2015 and started the Veterinary Dental Specialists of Wisconsin in Germantown in 2022. He is excited to offer advanced diagnostic and treatment capabilities at his new location.
